

Your Cough,

like a dog's bark, is a sign that there is something foreign around which shouldn't be there. You can quiet the noise, but the danger may be there all the time. SCOTT'S CATARRH oil, Cod-liver Oil, or a cough specific, it does successfully allay the symptoms, but it will give such strength to the body that it is able to shake off the disease.

You know the old proverb "An ounce of prevention is worth a pound of cure." Don't neglect your cough. A doctor who will tell you more on the subject sent free on request.

Yours suggest keeps Scott's Cod-liver Oil. Put up in 30 oz. bottles.

SCOTT'S CATARRH OIL.

The New Road Through Grand Mountain Scenery and Rich Valleys.

HOT FOR THE SULPHURS.

The New Road Through Grand Mountain Scenery and Rich Valleys.

A DAY'S RIDE TO THE SPRINGS.

On or about the 1st of May, W. L. Trimble & Co. will start their train from stage from this city via Thornton to the famous Sulphur springs resort in the Jemez mountains.

Mr. Trimble was seen this morning and he stated that he met his son Sherman in the hotel across the street and talked with him concerning the proposed stage line. He said nothing definite, but stated that the stage will run westward, and that part of the plan will be to arrange six stations in a few days.

On first stage station of Thornton, we will change horses, via the mountains, to the Cochiti prairie where boats will be wanted sufficient time to take a peep at the sights of this grand Indian village.

Grand Island stage winds its way through sublime mountain scenes and through fields of lofty pine and cypress, until Trimble is reached, which is the last station on the route and where the horses are again changed.

From this station, located on the banks of a pure mountain stream, where a stop is made for a brief time, we will then take time to stop for time and look out a trout, the road continues through one of the prettiest valleys in New Mexico until it enters the mountains and through these, the sides of which are covered with lofty timber, the stage comes under the famous resort town.

After a night's rest in the stage, which will be made in about eleven hours, all daylight travel to Thornton and from there to stage. The cost for the round trip, including railroad fare, will be about \$12.

THE RIVER.

Two or Three Bad Places on the Rio Grande will be Taken.

City Marshal Fortin and Deputy Sheriff Jones, desiring no repetition of the terrible Oklahoma flood to the city of Alamogordo, have been working hard this morning and drove up to the state line today. They found that the river had spread over a big area of country at Alamogordo and Bataan de Abiquiu, and that there were several very low places in the dykes caused by country folks filling in the dykes, causing the water to overflow and damage the roads.

It is expected that in a few days a bad will be coming around the city, which will probably be followed by a flood.

R. S. Phillips has started the assessment work on the Rio Grande Canal and is now showing good progress.

This afternoon, the assessment work on the head of the river has been started.

Encouraged by the results obtained by the men of the commission, and with the help of the county commissioners, the work is progressing rapidly.

The citizens learned this afternoon that Mayor Albright will take some action in the matter, and also that Agent Mason, of the railroads, will meet a party of men派 to inspect the position at the Water Canyon, company office, and will be in touch with the manager.

Albright, who is a widow, who was married to the manager, traveling with her husband, who was a member of the crew, was in the city during the winter and died right after Phillips. She was a widow at the time of her death.

Following the fatal accident, Mr. Phillips, who was a widow, was buried in the city.

He was buried in the cemetery of the city, during the winter and died right after Phillips. She was a widow at the time of her death.
